

Along with Ano-Mag, Consolidated Coil Converter, Inc., takes full advantage of its job shop capabilities with a unique approach to coil to coil processing.

COIL PROCESSING SERVICES FROM BEGINNING TO END

Along with **Ano-Mag**, Consolidated Coil Converter, Inc. takes full advantage of its job shop capabilities with a unique approach to coil to coil processing. Along with a fully dedicated anodizing line for coil to coil finishing, the system offers alternatives to piece and part processing familiar to most manufacturing facilities. The process line can provide the following options as well:

In addition to the anodizing system there is an in line coil coating line capable of applying basic paints and varnishes along with high end aerospace and industrial finishes such as BR 127 corrosion inhibitor. The infrared oven is capable of finishes for the following specifications:

BENEFITS

- Coil Cleaning of any strip Chem-Film
- Full anodized edge on precision manufactured strip
- Color anodizing
- Nickel Steel / Hot water seal
.500" to 24.00" coil width

SPECIFICATIONS

- Coil to coil coating
- Baking Enamel, paint, varnish, aerospace
- From .00015" to .020" thick
- .125" to 24.00: coil width

In house slitting services along with strips conditioning are available. Materials from aluminum, stainless steel, copper and exotics pass through our single source production system to create a finished product, which eliminates the two or three typical vendors one needs to accommodate a coated, anodized or enhanced look to any material.

FINAL PRODUCT SERVICES IN EVERY SHIPMENT

Throughout the development of **Ano-Mag** and all of our fine coil products, we have found what damages more magnets more often than heat..... Shipping Companies. Ano-Mag coils are unique and delivered ready to install, so shipping them worldwide has its specific challenges. Coils are shipped daily throughout the US and abroad; having a unit damaged or destroyed can challenge customer and vendor alike, so each coil or set of **Ano-Mag** coils is custom crated for your protection.

Every shipment is considered for its unique purpose, so custom crating and one-off pallets are fabricated to withstand the rigors of truck, rail, ocean or air with no compromise to build quality. Illustrated are the minimum expectations you should have when ordering **Ano-Mag** or any of our other coil products offered.
